PAST PERFORMANCE — SELECTED ENGAGEMENTS

NAS Pensacola / Allen & Hoshall

Subcontracted on DoD MWR esports facility design at NAS Pensacola — technology planning, operational vision, and esports expertise for military recreation build-out.

US Navy Base Sasebo, Japan

Remote strategic consulting for MWR gaming facility development for US Navy service members at Sasebo Naval Base, Japan.

Bessemer Housing Authority

Lead consultant for \$5.5M esports & technology hub — business model, revenue projections, technology blueprint, architectural & engineering coordination.

UCSD Triton Esports Center

Strategic advisor for development and launch of University of California San Diego collegiate esports facility — space design, technology integration, operational best practices.

Beardsley School District

Designed, built & deployed custom gaming PCs, 25Gb CCBboot/PXE server, iCafeCloud software across three K-12 campuses. Full curriculum licensing and on-site setup.

YMCA Mission Valley

Designed first YMCA esports program in San Diego County — Digital Studio featuring esports, coding & robotics. Strategic and operational foundation.

HyperX Arena Las Vegas

Specialized software consulting for flagship esports arena at the Luxor Hotel & Casino — one of the most visible gaming venues in the world.

Gamers Grove (2024)

Co-founded one of the highest-rated gaming centers in the US (Cedar Grove, NJ) — enterprise network, 2.5Gb endpoints, custom PCs, CCBboot deployment, full business strategy & web presence.
